UNAH, UNICAH,
UNITEC

Develop a clinical record focused on prevention.

Maintain statistics on cavities and periodontal disease.

Train the dentists working in the ministry on prevention."

PRIVATE CLINICS

Train the dentist in prevention and brush techniques

PUBLIC HEALTH MINISTRY

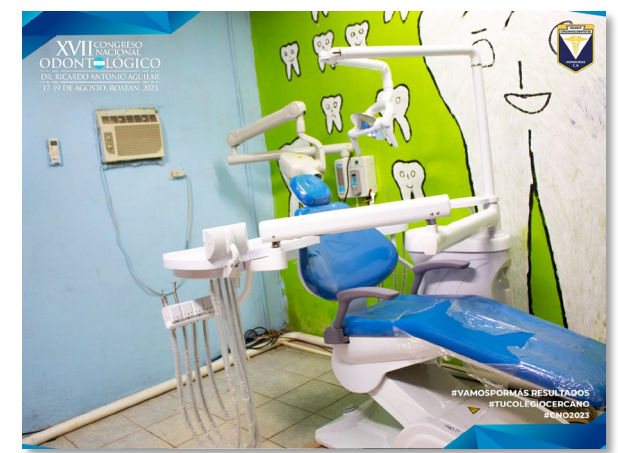

Curriculum Change for Preventive Brigades

Dentists in community service should be active members and participants in a community health plan.

What We Have Achieved?

PUBLIC HEALTH

- * We developed a pilot program in the Santos Guardiola community.
- * Actively participating in the development of the Oral Health Plan in conjunction with the Health Ministry.

What We Have Achieved?

PRIVATE HEALTH

- * 490 dentists have been trained in brushing techniques.
- * Publicizing the 2030 objectives for oral-dental health.
- * Conference on prevention supported by the private sector.
- * Education in ART and Biomimetic Dentistry.

THANK YOU!
