

DAY 1 – WEDNESDAY 7 SEPTEMBER									
Time / Pavilion	Pavilion 15 - level 0, Hall 0.D	Pavilion 15 - level 0, Hall 0.E	Pavilion 15 - level 2, Earth Hall A	Pavilion 15 - level 2, Earth Hall B	Pavilion 15 - level 2, Hall 2.C	Pavilion 15 - level 1, Hall 1.D+1.E	Pavilion 15 - level 1, Hall 1.F+1.G	Pavilion 15 - level 1, Hall 1.A+1.B	
8:30-9:30	Free communications	Free communications	New methods of soft tissue augmentation around teeth and implants <i>Marzena Dominiak</i>	Challenges in contemporary infection control <i>Laurence Walsh</i>	Optimized bonding and material selection for chairside CAD/CAM dentistry <i>Julian Conejo</i>	Clues at your fingertips: an overview of temporomandibular joint (TMJ) disorders with imaging techniques <i>Kaan Orhan</i>	Is there a need for tooth transplantation in contemporary dentistry? <i>Ewa Monika Czochrowska</i>	Contemporary proceedings in the prevention and treatment of gingival recession <i>Wojciech Bednarz</i>	
9:30-10:00			Coffee break	Coffee break	Coffee break	Coffee break	Coffee break	Coffee break	
10:00-11:00			Soft tissue considerations around teeth and implants <i>Korkud Demirel</i>	The influence of individually trained oral prophylaxis on oral health <i>Denis Bourgeois</i>	New advances in mechanical instrumentation to control intra-canal infection <i>Gilberto Debelian</i>	How to avoid technical errors and artefacts in dentomaxillofacial radiology – a practical guide <i>Ingrid Rozylo-Kalinowska</i>	Prosthodontic approach in treatment patients with TMJ internal derangements <i>Jolanta Kostrzewa-Janicka</i>	Stomatodibetology – fact or fantasy? <i>Leszek Czupryniak</i>	
11:00-11:30			Coffee break	Coffee break	Coffee break	Coffee break	Coffee break	Coffee break	
11:30-12:30	Free communications	Free communications	Minimal invasive full mouth rehabilitation with chairside CAD/CAM technology <i>Julian Conejo</i>	Non-surgical periodontal treatment: Changing of paradigm after 32 years of clinical practice <i>Gil Alcoforado</i>	Industry Lunch Symposia	Immunodeficiencies in paediatric dentists <i>Dorota Olczak-Kowalczyk</i>	Dental implants as orthodontic anchorage - 3-dimensional finite element analysis, solid and mimic model <i>Liwia Minch</i>	The use of allogenic hydrated collagen matrix for regeneration of the gum <i>Jacek Zurek</i>	
12:30-14:30			Lunch break	Lunch break		Lunch break	Lunch break	Lunch break	
14:30-15:30	Free communications	Free communications	HOT TOPIC SESSION The global strategy and teamwork for periodontal health and overall health <i>Li-Jian Jin, Soren Jepsen, Filippo Graziani</i>	Interdisciplinary communication... The key to success in aesthetic dentistry <i>Ricardo Mitrani</i>	Coffee break	International Pediatric Association Symposium Dentistry for the very young child <i>Ari Kupietzky</i>	Apical third management – #35/04 rule for effective disinfection <i>Bartosz Cerkaski</i>	Temporomandibular Disorders: Myth or Current Clinical Problem? <i>Mieszko Wieckiewicz</i>	
15:30-16:00						Reducing complications / post operative morbidity of sinus augmentation <i>Hadar Better</i>	CBCT justification and limitation in general dental practice <i>Ingrid Rozylo-Kalinowska</i>	Bruxism and obstructive sleep apnea relationship <i>Jolanta Kostrzewa-Janicka</i>	
16:00-17:00	Free communications	Free communications							
DAY 2 – THURSDAY 8 SEPTEMBER									
Time / Pavilion	Pavilion 15 - level 0, Hall 0.D	Pavilion 15 - level 0, Hall 0.E	Pavilion 15 - level 2, Earth Hall A	Pavilion 15 - level 2, Earth Hall B	Pavilion 15 - level 2, Hall 2.C	Pavilion 15 - level 1, Hall 1.D+1.E	Pavilion 15 - level 1, Hall 1.F+1.G	Pavilion 15 - level 1, Hall 1.A+1.B	
8:30-9:30	Free communications	Free communications	Mechanism of accelerated orthodontic tooth movement <i>Alpdogan Kantarci</i>	Is low budget therapy of mandibular frontal crowding possible? <i>Tomasz Gedrange</i>	Prosthetic considerations in implant dentistry <i>Georges Tehini</i>	Oral Health / General Health (Diabetes) The oral manifestations of diabetes mellitus <i>Ira Lamster</i>	Adhesion to enamel and dentin: form research to clinic <i>Lorenzo Breschi</i>	From the cases with mistakes to the successful implantological cases <i>Mariusz Duda</i>	
9:30-10:00			Coffee break	Coffee break	Coffee break	Coffee break	Coffee break	Coffee break	
10:00-11:00			Tooth or implant: What do you prefer? <i>Liran Levin</i>	Improving the efficiency of orthodontic tooth with versatile mechanical systems and frictional control <i>Stephen Williams</i>	Is vitamin D deficiency associated with oral health? <i>Andrzej Milewicz</i>	The end of traditional syringes <i>Krzysztof Gonczowski</i>	Innovations in maxillofacial and oral surgery <i>Iwona Niedzielska</i>	2016 Global report on the alliance for a cavity-free future <i>Nigel Pitts, Urszula Kaczmarek, Marco Mazavet</i>	
11:00-11:30			Coffee break	Coffee break	Coffee break	Coffee break	Coffee break	Coffee break	
11:30-12:30	Free communications	Free communications	Activation and resolution of periodontal inflammation <i>Alpdogan Kantarci</i>	How can we improve efficiency in orthodontics practice? <i>Zakaria Bentahar</i>	Colgate symposium Oral Health 2.0 - Evolving prevention in dental practice A contemporary view on prevention in practice <i>Paul Brocklehurst</i> Clinical leadership and prevention in practice <i>Colette Bridgman</i> New concepts in prevention for oral health <i>Diane Cummins</i>	The physiology of salivary secretion: stimuli that make your mouth water <i>Roger Linden</i>	Modern materials: Can they meet the world's oral health needs? <i>John Nicholson</i>	Influence of keratinized gingiva thickness on loss of crestal bone around implants ... <i>Monika Puzio</i>	
12:30-14:30			Lunch break	Lunch break		Lunch break	Lunch break	Lunch break	
14:30-15:30	Free communications	Free communications	YEAR IN REVIEW <i>John Nicholson</i> - The action and delivery of fluoride: An update <i>Roger Linden</i> - Saliva <i>Hendrik Meyer-Lückel</i> - Caries prevention and diagnostics <i>Liran Levin</i> - Peri-implantitis – the disease of the future! <i>Jean-Yves Cochet</i> - Clinical applications of new technologies and concepts in Endo: Endo is changing!	A novel, simple lingual orthodontic appliance for incisor protrusion <i>Young-Guk Park</i>	Coffee break	New Bulkfill Composites – a viable way or too risky? <i>Reinhard Hickel</i>	The biological effect of chemical retraction on primary human fibroblasts from gingiva <i>Jolanta Sazcko</i>	Effectiveness and success in implant therapy: standards and the aspects of general health status <i>Andrzej Wojtowicz</i>	
15:30-16:00			Coffee break	Coffee break	Coffee break	Coffee break	Coffee break	Coffee break	
16:00-17:00	Free communications	Free communications	Orthodontic approaches for the treatment of OSA adults <i>Su Jung Kim</i>	Functional pretreatment of temporomandibular disorders (TMD) before final oral rehabilitation <i>Georg B. Meyer</i>	Inequalities in oral health – challenges and possibilities for dental education and dental practice <i>Lone Schou</i>	Regeneration of the alveolar bone after autotransplantation of developing teeth <i>Pawel Plakwicz</i>	Women Dentists Worldwide Forum - part I. Anesthesia and sedation in the dental office <i>Zeljka Martinovic, Daniela Bandic-Pavlovic, Maria Gabriella Grusovin</i>		
DAY 3 – FRIDAY 9 SEPTEMBER									
Time / Pavilion	Pavilion 15 - level 0, Hall 0.D	Pavilion 15 - level 0, Hall 0.E	Pavilion 15 - level 2, Earth Hall A	Pavilion 15 - level 2, Earth Hall B	Pavilion 15 - level 2, Hall 2.C	Pavilion 15 - level 1, Hall 1.D+1.E	Pavilion 15 - level 1, Hall 1.F+1.G	Pavilion 15 - level 1, Hall 1.A+1.B	
8:30-9:30	Free communications	Free communications	HOT TOPIC SESSION Overuse of antibiotics <i>Michael Glick, Dan Meyer</i>	Academy of Osseointegration Symposium Subgingival and supragingival prosthetic materials in implant restorations <i>Tomasz Linkiewicz</i>	Global caries status amongst the young: epidemiological findings and main aetiological factors <i>Jo Frencken</i>	FDI Dental Practice Committee Forum Going Green: The Bottom-line Benefits of Green Dental Office Design <i>James Kuester</i>	Local anaesthesia in dentistry: Update on drugs, techniques and delivery systems <i>Monika Daubländer</i>	Posterior direct composite restorations – can we guarantee a long-term success? <i>Monika Lukomska-Szymanska</i>	
9:30-10:00			Coffee break	Coffee break	Coffee break	Coffee break	Coffee break	Coffee break	
10:00-11:00			Digital technologies meet oral surgery <i>Bernd Stadlinger</i>	Esthetic outcomes for single implants in the anterior maxilla and dimensions of the peri-implant hard and soft tissues <i>Asbjørn Jøksstad</i>	Optimal management of the posterior atrophic mandible <i>Hadi Antoun</i>	Improving oral health of young children by educating mothers: from pregnancy to 3 years-old <i>Ece Eden</i>	Sustainability. A new paradigm in Dentistry <i>Claudio Fernandes Pinheiro</i>	BOP YOUR TEETH and ITOP create healthy teeth and healthy economics <i>Rolf Kufus</i>	Is it possible to prevent Early Childhood Caries? Current views and strategies <i>Katarzyna Emerich</i>
11:00-11:30			Coffee break	Coffee break	Coffee break	Coffee break	Coffee break	Coffee break	Coffee break
11:30-12:30	Free communications	Free communications	Systemic antibiotics in the treatment of the periodontal diseases <i>Magda Feres</i>	Headache – an interdisciplinary problem – aspects of dental risk factors <i>Georg B. Meyer</i>	Pierre Fabre Oral Care Symposium Implantology: Pharmacological treatment Antiseptics usage Introduction <i>Marzena Dominiak</i> Pharmacological treatment in pre/per & post implant surgery <i>Silvestros Spiridon</i> Implant disease pharmacological treatment: Mucositis & Periimplantitis <i>Gil Alcoforado</i> Current perioperative use of orodental antiseptics in implant surgery <i>Marzena Dominiak</i> Discussion	Minimally invasive treatment of root surface caries <i>Edward Lo</i>	Malignant lesions of oral mucosa <i>Jean-Christophe Fricain</i>	Clinical and microbiological outcomes following the combination of Nd:YAG and Er:YAG laser in non-surgical periodontal therapy <i>Kinga Grzech-Luchniak</i>	
12:30-14:30			Lunch break	Lunch break		Lunch break	Lunch break	Lunch break	
14:30-15:30	Free communications	Free communications	HOT TOPIC SESSION Periodontology vs. implantology <i>Liran Levin, Marshall Gallant</i>	Biophotonics and the dental sciences. Laser Phototherapy in Dentistry (LPT) <i>Aldo Brugnera</i>	Coffee break	Caries infiltration: when and how does it work? <i>Hendrik Meyer-Lückel</i>	Oral lichen planus, known or unknown disorder? <i>Malgorzata Radwan-Oczko</i>	The use of lasers in implantology – today and predictions for the future <i>Jacek Matys</i>	
15:30-16:00			Coffee break	Coffee break	Coffee break	Coffee break	Coffee break	Coffee break	
16:00-17:00	Free communications	Free communications	Response of dental tissues to trauma <i>Brett Dorney</i>	Role conflicts in dentistry and their ethical implications <i>Dominik Gross</i>	EEC prevention: successful initiation of dental health education among mothers of young children in Casablanca, Morocco. <i>Mouna Hamza</i>	Dental pain: diagnostic implications <i>Khaldoun Rifai</i>	New, universal self-etching adhesives and resin composites in direct tooth reconstruction and adhesive cementation <i>Jerzy Sokolowski</i>		
DAY 4 – SATURDAY 10 SEPTEMBER									
Time / Pavilion	Pavilion 15 - level 0, Hall 0.D	Pavilion 15 - level 0, Hall 0.E	Pavilion 15 - level 2, Earth Hall A	Pavilion 15 - level 2, Earth Hall B	Pavilion 15 - level 2, Hall 2.C	Ukrainian Day Pavilion 15 - level 1, Hall 1.D+1.E	German Day Pavilion 15 - level 1, Hall 1.F+1.G	Pavilion 15 - level 1, Hall 1.A+1.B	
8:30-9:30	Free communications	Free communications	Endodontic lesions treatment: New approach and new technology <i>Jean Yves Cochet</i>	The significance of endosseous implants in elderly edentulous patients <i>Martin Schimmel</i>	Advanced Laser Dentistry <i>Robert Convisar</i>	8:45-9:00 - Inauguration 9:00-9:30 - I. Mazur - Bone metabolism and periodontal disease 9:30-10:00 - S. Radlinsky - Free Design in Direct Restoration: Theory and Practice 10:00-10:30 - Y. Chumakova - Desquamative gingivitis: etiological factors, clinical, histopathologic and immunologic characteristics 10:30-11:00 - N. Savychuk - Tactics diagnosis and treatment of chronic infectious diseases of the oral mucosa 11:00-11:30 - Coffee break 11:30-12:00 - M. Drohomiretska - TMJ, occlusion and adaptation 12:00-12:30 - A. Barylyak - Prolonged reduction of dentin hypersensitivity using nanofluorapatite 12:30-14:15 - Lunch Break 14:15-14:45 - O. Kulygin - Maxillary Sinusitis of Dental Origin 14:45-15:00 - Discussion 15:00-15:15 - S.R. Got - The intensity of biofilm formation on titanium and zirconia abutments during treatment with implant-supported prostheses 15:15-15:30 - G. Vyshevska - Revascularization mucogingival defect after closing acellular amniotic membrane with mesenchymal stem cells in an experiment on rats 15:30-16:00 - Coffee break 16:00-16:15 - V. Slatkovskiy - Biocompatibility of MTA based cements studied on fibroblasts cell culture line 16:15-16:30 - O. Lulitkov - Clinical evaluation of restorative materials for postendodontic restoration in primary molars 16:30-16:45 - M. Bilous - Occlusion and posture: experimental induced postural adaptation in rats 16:45-17:00 - Discussion, closing of the Ukrainian session	9:00-9:15 - Welcome 9:15-9:45 - R. Kufus - Preventive and community dentistry 9:45-10:15 - M. Daubländer - Local anesthesia in modern dentistry 10:15-10:30 - Discussion 11:00-11:30 - D. Gross - Dental ethics: A clinical approach 11:30-12:00 - B. Stadlinger - Oral surgery 12:00-12:30 - G.B. Meyer - Update occlusion and TMD 12:30-12:45 - Discussion 12:45-14:00 Lunch Break 14:00-14:30 R. Frankenberger - Adhesive dentistry 14:30-15:00 H. Meyer-Lückel - Drill & Fill or Heal & Seal 15:00-15:15 Discussion 15:15-15:45 Coffee Break 15:45-16:15 M. Schimmel - Prosthodontics for geriatric patients 16:15-16:45 T. Gedrange - Orthodontics 16:45-17:00 Discussion and end	Knowledge and awareness of oral cancer – a multicenter survey study <i>Hanna Gerber</i>	
9:30-10:00			Coffee break	Coffee break		Coffee break	Coffee break	Coffee break	Coffee break
10:00-11:00			What is true minimally invasive cariology? <i>Roland Frankenberger</i>	Oral health for an ageing population forum: Tooth loss and importance of retaining teeth for vitality, quality of life and longevity <i>Martin Schimmel</i> Prevention of tooth loss and dental pain for reducing the global burden of oral diseases <i>Susan Hyde</i> Relation oral health / general health and NCDs <i>Christoph Benz</i> Health care systems <i>Elisa Ghezzi</i> Surveillance and monitoring <i>Hideo Miyazaki</i>	Optimal scheduling for dental practice <i>Alexander Tolmeijer</i>	Patient specific reconstructions in contemporary maxillofacial surgery <i>Marcin Kozakiewicz</i>			
11:00-11:30			Coffee break	Coffee break	Coffee break	Coffee break	Coffee break	Coffee break	
11:30-12:30	Free communications	Free communications	Reconstructive and orthognathic surgery of dental defects in ageing patient <i>Maciej Jagielak</i>	How to: Gaining an adequate ferrule in compromised teeth - aesthetic and structural problem solving <i>Maciej Zarow</i>	The long-term experience in the treatment of blow-out (isolated) fracture of the orbit <i>Grazyna Wyszynska-Pawelec</i>	The long-term experience in the treatment of blow-out (isolated) fracture of the orbit <i>Grazyna Wyszynska-Pawelec</i>			
12:30-14:30			Lunch break	Lunch break			Lunch break	Lunch break	
14:30-15:30	Free communications	Free communications		Joint FDI/ISO Session Dental implant international standards. Meeting the challenges of global demands <i>Jean Paul Davidas, Gottfried Schmalz, Claudio Fernandes Pinheiro</i>
